

- ☐ -5 points No **AJAX form with error handling** (client-side as well as server side)
- ☐ -10 points if your application is vulnerable to **XSS**
- ☐ Comments. -2 to -10 points each depending on the severity of the bug/usability issue

"If you're allowing the user to leave reviews, **each user should only be able to leave one review**. This is so if someone is pissed off, they can't spam your reviews and skew the results. Instead, give them the option to **edit their existing review** in case they change their mind. "

问问老师非得这样吗？

- ☐ -10 points for each missing **core feature**

#### core feature

- ☐ **Landing Page:** Explains the purpose and motivation of the service; provides the contact methods of specific public places; shows trending and latest lost items
- ☐ **Claim:** There will be one click button, which means "This is mine!", for the person who thinks that this item belongs to her or him to further communicate with the posting owner. There will be another click button, which means "This item was claimed!" or "Found!", for the posting owner to demonstrate that this item has been claimed after verification.
- ☐ **Search:** based on time related to the item; based on place corresponding to the item; based on category the item belonging to
- ☐ **User profile:** display the username, email and phone list the post history showing items the user lost. There will be a history page for users, showing past items they have found and items a user has claimed if there is one.
- ☐ **Adding/Removing friends:** The first communication method is the comments. The second scheme is creating a simple chat application in Erlang which we dub TinyChat which can be used for this function. We will search for more solution schemes for online chatting methods.
- ☐ 数据库对于Post的图片、状态等多个变量的整合，图片上传功能

+5 points for every **extra feature** you complete with a cap of +15 for **three extra features**

- ☐ Map
- ☐ To praise the kindest people who picked up the most items and brought them to their owner, we can set a special monthly page to express our admiration for them.
